

Hine Automation's April Newsletter

Message From Scott:

In our April newsletter we spotlight our newest video, "HALO: Our Manufacturing Equipment Testing Is Cutting Edge." We also have our second Industry News installment, along with a brand new article focused on the **advantages of choosing the right contract manufacturing partner.**

If you have any questions, feel free to reach out to sales@hineautomation.com. We'd love to hear from you.

Choosing The Right Contract Manufacturing Partner

Advantages of Choosing the Right Contract Manufacturing Partner

Contract manufacturing occurs when work is transferred to an outside source. Typically, a company decides to contract a partner when committing to the entire project "in-house" would unnecessarily burden its immediate resources or result in higher costs and expenses. For example, contracting out for the design and manufacture of a product which fits as a subsystem within the customer's larger project. Therefore, it often makes sense to have the CM provide the subsystem with any custom modifications needed. This freedom allows the customer to focus on their strengths (what they are good at!) by assigning the other manufacturing work to... [Read More](#)

Industry News

Cost to rebuild US semiconductor manufacturing will keep growing.

As Washington debates spending \$52 billion to start regaining America's former role as a leading semiconductor manufacturer, experts say the public and private cost over the next two decades may exceed 10 times that much — and some worry such spending may still not achieve the goal.
